

KABILAN M *IT Admin*

 janukabi2005@gmail.com

 +91904379188

 Chennai, Tamil Nadu, India

SUMMARY

System Administrator with hands-on experience in Windows Server, IIS, Microsoft Azure Virtual Machines, and Veeam Backup. Skilled in domain, SSL, and web hosting management using cPanel and Plesk, with exposure to PCI SOC Type 2 and ISO audit-compliant IT environments. Experienced in supporting enterprise endpoint security using Microsoft Intune.

EXPERIENCE

06/2025 – Present Chennai	Arco Info India Private Limited, IT Admin • Provisioned and managed Microsoft Azure Virtual Machines for 10 internal applications. • Monitored VM performance, uptime, and resource utilization in Azure environment. • Assisted in VM backup verification and access control management. • Coordinated cloud deployment and infrastructure migration activities. • Managed and monitored Azure Virtual Machine servers hosting SQL-based applications. • Assisted in endpoint device management and policy configuration using Microsoft Intune.
03/2024 – 06/2025 Chennai	ELIXIR BUSINESS SOLUTION PRIVATE LIMITED, Junior System Administrator • Managed Windows Servers including Domain Management. • Administered Veeam Backup & Replication for secure data backup and disaster recovery. • Managed and deployed 30+ websites via cPanel hosting environment. • Configured and maintained 12+ web applications using Windows IIS Server. • Installed SSL certificates and managed enterprise email servers on IBM infrastructure.
07/2023 – 02/2024 Chennai	EIPP Solutions Private Ltd, Junior System Administrator • Provided system and network support for 50+ endpoints, including desktops, laptops, and network printers. • Installed and troubleshooted network printers and shared devices across departments. • Managed Seqrite Endpoint Security to ensure malware protection and endpoint compliance. • Supported IT infrastructure aligned with PCI SOC Type 2 and ISO audit requirements. • Resolved hardware, OS, and network-related issues to maintain uninterrupted business operations.

SKILLS

Server & Infrastructure

- Windows Server Administration
- Group Policy Management
- IIS Web Server
- System Troubleshooting
- Patch Management

Hosting & Domain

- cPanel Administration
- Plesk Control Panel
- Domain Management
- SSL Certificate Installation
- Web Hosting Management
- IBM Email Server Configuration

Networking & Security

- Network Configuration
- LAN / WAN Management
- FortiGate Firewall
- Cisco Router & Switch
- VPN Configuration
- DNS & DHCP
- Seqrite Endpoint Security
- PCI SOC Type 2 Compliance
- ISO Audit Support

Cloud & Backup

- Microsoft Azure Virtual Machines
- Veeam Backup & Replication
- Disaster Recovery
- System Monitoring

COURSEWORK

2022

Cisco Certified Network Associate (CCNA), *Ramakrishna Mission Polytechnic College*

Network Routing & Switching

- Gained foundational knowledge of network structure and working principles.
- Learned concepts of IP addressing, DNS, DHCP, and basic web server functionality.
- Understood LAN/WAN networking fundamentals and troubleshooting basics.

EDUCATION

2023

Diploma in Computer Engineering,

Ramakrishna Mission Polytechnic College. Mylapore, Chennai

- Completed academic coursework in Networking, Operating Systems, and Computer Hardware.
- Developed IoT-based Automatic Bell System as final year academic project.
- Gained practical knowledge in system troubleshooting and basic network configuration.

PROJECT

01/2023 – 04/2023

Automatic Bell System Controlled via Mobile using Campus Wi-Fi,

Final Year Academic Project

- Developed an IoT-based automated bell system to manage class schedules across 10+ daily time intervals.
- Integrated Wi-Fi enabled microcontroller to automate bell operations within campus network.
- Enabled remote bell triggering through mobile device over internal Wi-Fi.
- Reduced manual bell operation effort by 80% through automation.
- Improved bell scheduling accuracy for institutional operations.
